Impact of Waiting Times Review On A&E

The King's Fund has reviewed the issues faced by A&E departments posed by the review of NHS performance targets, led by the NHS England national medical director Professor Steve Powis, who published an interim report in March 2019.

Annual NHS Cancer Checks Top Two Million For The First Time

For the first time last year, the NHS in England carried out more than two million checks on people who feared they might have cancer.

In 2018, patients underwent 2.2 million cancer checks following urgent referral by their GP, almost 6,000 a day or more than four every minute. [Record](#) numbers of people also received treatment for cancer, with 308,058 receiving a first treatment in 2018, almost 13,000 more than in 2017 and the first time the number has topped 300,000.

Incident Reporting for GPs

GP Practices should report via the National Reporting and Learning System (RNLS). Guidance was produced in 2015 for general practice staff on reporting patient safety incidents to the NRLS. This guidance can be found at: <https://improvement.nhs.uk/documents/815/gp-nrls-guide.pdf>

Nationally, GP Practice reports to the NRLS were much lower than reports received from Secondary Care. An e-form has been designed to make reporting quick and easy for general practice staff. The e-form can be found at : https://report.nrls.nhs.uk/GP_eForm
